Traders Webinar

Exporting POAO goods from EU into Great Britain

2021

Agenda

- 3** Introduction to approach
- 4** Stage 1 Highlights
- 5** Stage 2 Highlights
- 6** Pre-notification IPAFFS
- 7** Health Certificates
- 8** Checks Overview
- 9** Composites
- 10** EU Origin Transits: EU-GB-EU
- 11** EU Origin Transits: EU-GB-RoW
- 12** Prohibitions and Restrictions
- 13** Be Prepared
- 14** Question and Answer Session

Introduction to approach

Overview: Import controls for GB are being introduced in a phased approach in order to give businesses impacted by COVID-19 time to adjust whilst maintaining effective biosecurity controls.

These stages include:

Sanitary and phytosanitary (SPS) controls, including the requirements for:

- Importer pre-notifications (GB importer action)
- Health certification (such as an Export Health Certificate or Phytosanitary Certificate)
- Documentary, identity and physical checks at the border or inland
- Entry via a point of entry with an appropriate Border Control Post (BCP) with relevant checking facilities

Processes and procedures for the export of:

- Live animals
- Animal products
- Fish and shellfish and their products
- Plants and plant products
- High-risk food and feed not of animal origin

Stage 1: January Highlights

Export of POAO under safeguard measures only

- **The GB importer must:** Pre-notify in advance of arrival using **IPAFFS** and provide the EU exporter with the unique notification number (UNN).
- **You must:** Add the **UNN onto the health certificate** and provide the GB importer with an electronic copy of the health certificate
- **The GB importer must:** Upload an electronic copy of the health certificate on to **IPAFFS**.
- **You must:** Ensure the original health certificate travels with the consignment.
- **Safeguard measures:** Action can be taken at **very short notice** to prohibit or restrict imports of certain products from certain countries following an outbreak of disease or a public health issue.

If measures are introduced because of a new or emerging disease, there may be additional steps you will need to follow to pre-notify - **outlined on [Gov.uk](https://www.gov.uk)** |

Please note: There are no changes for other POAO until **April 2021**

Stage 2: April Highlights

The GB importer must: Pre-notify all POAO using **IPAFFS**.

The GB importer must: Raise a pre-notification **in advance of arrival** at the point of entry.

You must: Obtain the relevant **health certificate** and ensure that it travels with the consignment.

It's important that you: Provide the importer with an **electronic copy of the health certificate**.

The GB importer must: Upload an electronic copy of the health certificate on to **IPAFFS**

Documentary Checks: Can be carried out remotely, away from the border.

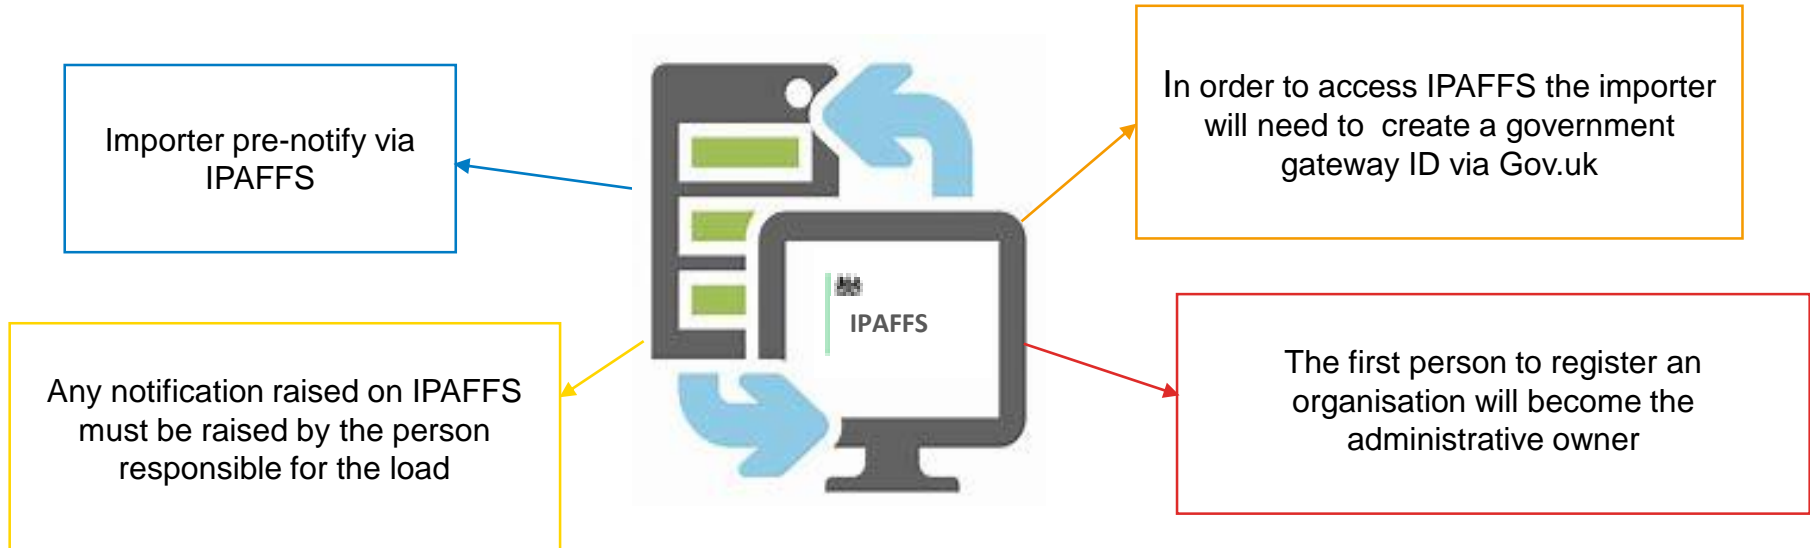

Goods: Can arrive at any point of entry.

Please Note: Requirements for POAO under safeguard measures introduced on **1 January 2021** will continue to apply.

Importer Pre-notifications Process: IPAFFS

Overview: From 1 April 2021 all POAO arriving from the EU or EEA countries will need to be pre notified via The Import of Products, Animals, Food and Feed System (IPAFFS)

IPAFFS: GB national system for notification of the arrival of SPS goods into Great Britain. Below is the process the importer must take:

Health Certificates

General Overview

From January 2021: POAO under safeguard measures must be accompanied by a health certificate

From April 2021: All POAO must be accompanied by a health certificate

Certification Steps

1. The **health certificate** is issued by the competent authority in the EU country
2. The **EU exporter** is responsible for obtaining the health certificate
3. The **EU exporter** must provide the importer with an electronic copy of the health certificate for it to be uploaded to IPAFFS
4. The **EU exporter** must ensure a physical copy travels with the consignment

Links to further information:

- Model health certificates are available [here](#)
- **If there is no GB health certificate for your commodity visit [Gov.uk](#) for an import licence**
- If there is no import licence, you should complete an [IV58 form](#) on gov.uk and email a completed version to imports@apha.gov.uk

Checks Overview

Documentary checks

Identity & physical checks

Composites

Overview: Composite products are food containing both **processed** products of animal origin (POAO) and products of plant origin.

Composite products must follow the phased requirements of POAO and these goods must be pre-notified and accompanied by a GB health certificate from April 2021 unless otherwise exempt.

Some goods are exempt if they:

- Contain **<50%** processed animal product;
- Contain **no meat product**; and
- meet the requirements in **Article 6 of Decision 2007/275**

For more information on Composites please sign up to our Composite-focused webinars: [Register here](#) for 01/03/2021 or [Register here](#) for 15/03/2021

EU Origin Transits

Requirements for Transits EU-GB-EU movements:

January 2021 POAO subject to safeguard measures

- Pre-notification on **TRACES** and an **ITAHC**.
- Goods can enter and exit GB through any port with no physical or ID checks required on entry or exit.
- Confirmation that the consignment has left GB territory will be required.

April 2021 all POAO

- Pre-notification on **IPAFFS** and a **GB health certificate**.
- Goods can enter and exit GB through any port with no physical or ID checks required on entry or exit.
- Confirmation that the consignment has left GB territory will be required.

EU Origin Transits

Requirements for Transits EU-GB-RoW:

January 2021 POAO subject to safeguard measures

- Pre-notification on **IPAFFS** and a GB **health certificate**.
- Goods can enter and exit GB through any port with no physical or ID checks required on entry or exit.

From April 2021 all POAO

- Pre-notification on **IPAFFS** and a GB **health certificate**.
- Goods can enter and exit GB through any port with no physical or ID checks required on entry or exit.

Prohibitions & Restrictions

Overview: Prohibitions and restrictions (P&R) are new trade requirements that apply to certain commodities as of 1 January 2021.

Points to note:

- P&R on goods imported from the EU are being introduced in line with the phased approach to import checks. P&R already apply to products moving from the EU to GB, with the exception of some products of animal origin.
- Legislation has been made to temporarily remove P&R from certain POAO during Stage 1. This means, for example, goods such as chilled minced meat and meat preparations can continue to be imported
- From Stage 2, P&R on POAO will apply in full as it would to any other third country. This means that EU traders will not be able to export chilled minced meat (beef, lamb, pork, poultry), frozen minced meat (poultry), chilled meat preparations (all species) from 1 April 2021.

Further information on P&Rs is available on [HERE](#)

Be prepared...

Actions to take 1st April

- Make sure you provide the importer with an electronic copy of the **health certificate**
- Make certain the **health certificate travels** with the consignment
